<b>American Plum (<i>Prunus Americana</i>)</b>							
Small tree, with profuse white flowers followed by sweet red plums and brilliant fall color. Very hardy, benefits man and wildlife	1-0	10-24"	\$1.00	\$ .75	\$ .65	\$ .60	\$ .55
Medium growth.....20 feet	2-0	20-40"	\$2.50	\$1.75	\$1.50	call	call
<b>Common Apple (<i>malus domestica</i>)</b>							
Seed propagated domestic apple, useful for wildlife habitat, home orchard or shelterbelt filler.	2-0	18-24"	\$1.00	\$ .95	\$ .90	\$ .85	XX
Plant two near your favorite deer habitat for a natural food source.	1-3	24-48"	\$3.00	\$2.50	\$2.25	call	call
Medium growth.....25 feet							
<b>Nanking Cherry (<i>prunus tomentosa</i>)</b>							
Very hardy, attractive, flowering ornamental and wind break filler. Fruit used for jam and jelly.	2-0	12-18"	\$1.00	\$ .95	\$ .90	call	call
Dark green ornamental leaves, multi-stemmed wildlife shrub. Shows drought tolerance							
Medium growth.....9 feet							
<b>Black Cherry (<i>prunus serotina</i>)</b>							
Excellent ornamental, deep green leaves. Good for wildlife, highly prized wood.	1-0	8-12"	\$1.00	\$ .90	\$ .85	\$ .80	\$ .70
Fruit used for preserves.							
Medium growth..... 60-70'feet							
<b>Ranetka Crab (<i>Malus X Reneka</i>)</b>							
Great in extreme cold. Vigorous grower with profuse fragrant white flowers. Excellent form with straight trunk. One of our best picks for wildlife species crab. Red Nickle size fruit. Birds feast on this crab.	1-0/2-0	8-20"	\$1.00	\$ .90	\$ .85	call	call
Fast growth.....40 feet							
<b>Butternut (<i>Juglans cinerea</i>)</b>							
Resembles Black Walnut but smaller, Delicious hard shelled nuts have rich, oily, spicy flavor	1-0	10-16"	\$1.75	\$1.50	\$1.25	call	call
Wood used for rifle stocks.							
Fast growth.....60 feet							
<b>American Hazelnut (<i>corylus Americana</i>)</b>							
A vigorous multi stemmed shrub, tolerant of varied soil types, dark green summer foliage turning bright yellow in fall. Interesting floret type seed pockets hold Sweet filberts highly prized by most wildlife including people.	1-0	12-18"	\$1.50	\$1.25	\$1.00	call	call
Fast growth.....10 feet							
<b>Nannyberry (<i>viburnum lentago</i>)</b>							
Open shrub to small tree. Creamy white bloom clusters in spring yield a plethora of Of food for wildlife in fall. Tolerates drought and shade, does well on most soil types.	2-0	12-18"	\$1.50	\$1.25	\$1.00	call	call
Fast growth.....20 feet							
<b>Serviceberry "Shadblow" (<i>amelanchier Canadensis</i>)</b>							
Masses of white, early spring flowers emerge before any trees leaf out, edible purple/red fruit in Mid-summer, then bright yellow to red foliage in fall. A small shrubby specimen tree, does well in the shade.	1-0	12-18"	\$1.50	\$1.25	\$1.00	call	call
Medium growth.....25 feet							
<b>Horsechestnut (<i>aesculus hippocastanum L.</i>)</b>							
Almost tropical in appearance, showy white flowers in spring, large palmately compound leaf, large spiny seed coats with mahogany colored "Buckeye" nuts inside. Is not eaten by man nor beast. A unique specimen tree.	3-0	10-28"	\$2.00	\$1.50	call	call	call
Medium to fast growth.....50-60'							

## Fruit Trees (large bareroot)

		Size	1-5	6-10	10.	
<b>McIntosh Apple (Red Max)</b> Certified virus free (Semi Dwarf)	(bareroot)	5/8" caliper	\$25.00	\$20.00	call	
One of the most popular apples. Fruit has tart spicy flavor, good for both Fresh eating and cooking. ( Bud 118 rootstock.)						
<b>Honeycrisp Apple</b> Certified virus free (Semi Dwarf)	(bareroot)	5/8" caliper	\$25.00	\$20.00	call	
Crisp, juicy with excellent flavor, keeps in common storage up to 5 months. The new standard in eating apples, honeys are among the best. (Bud 118 rootstock)						
<b>SnowSweet Apple</b> Certified virus free (Semi Dwarf)	(bareroot)	5/8" caliper	\$25.00	\$20.00		
Fruit is slightly tart, sweet and savory. Apple is slow to turn brown once it has been Exposed to the air. Great for eating or baking ( Bud 118 rootstock)						
<b>Nanking Cherry (<i>prunus tomentosa</i>)</b>		(balled)	3-4'	\$25.00	\$20.00	call
Very hardy, attractive flowering ornamental and wind break filler. Fruit used in jams and jellies. Dark green leaves multi stemmed wildlife shrub.						
<b>Prairie Fire Crab (<i>malus X prairie fire</i>)</b>	(bareroot)		6'+	\$25.00	\$20.00	call
Reddish, purple blooms open to deep maroon fruit. Glossy dark red bark. Dark green leaves turn Purple/red in the fall. Medium growth.....20 feet						
<b>Japanese Flowering Crab (<i>malus floribunda</i>)</b>	(bareroot)		6'+	\$25.00	\$20.00	call
Considered one of the best seedling flowering crabs, offering heavy flower and fruit display, disease Resistance and ornamental form. Red/Pink buds open to white flowers then to red fruit. Medium growth.....18 feet						
<b>Sargent Crab (<i>malus sargentii 'Roselow'</i>)</b>	(bareroot)		6+'	\$25.00	\$20.00	call
Exceptional ornamental species. Profuse white flowers and dark red fruit. The only true apple shrub Roselow is a USDA SCS-PMC release. It is a densely branched, seed propagated cultivar Medium growth....8-10 feet

## Paint Creek Root Gel

Mix with water and dip roots before heading into the field, prevents trees from drying out until you get them in the ground. Gel wicks moister from surrounding soil and makes it available to root zone in times of drought.

**1 OZ enough for approximately 500 seedlings \$3.00**  
 (Free gel if you order 1000 or more seedlings)

**A thing is right when it tends to preserve the integrity, stability and beauty of the biotic community. It is wrong when it tends otherwise.**

**Aldo Leopold**

# Large Conifers (balled)

	Size	Quantity		
		1-5	6-10	10+
<b>White Spruce (Picea Glauca)</b> Hardy northern spruce with stiff bluish green needles. Symmetric growth Fast growth ....75 feet <b>(These are gorgeous large spruce at a super bargain.)</b>	3-5' 6-8'	\$35.00 \$75.00	\$30.00 \$70.00	\$25.00 \$65.00
<b>Blue Spruce (Picea Pungens)</b> Powder blue color varies to dark green in seed propagated trees. Native to Colorado, very hardy. Short needle length....50 feet	24-48" 3-5' 6' +	\$25.00 \$70.00 \$75.00	\$22.50 \$55.00 \$70.00	\$20.00 \$45.00 \$65.00

<b>Balsam Fir (Abies Balsamea)</b> Soft, bright green needles, very popular Christmas tree and ornamental. Needs very little shearing Medium growth...75 feet	(unsheared) 5-10' (sheared) 5-10'	\$50.00 \$75.00	\$45.00 \$70.00	\$40.00 \$65.00
<b>White cedar (Thuja Occidentalis) "Arborvitae"</b> Native to the eastern U.S. and Canada. Excellent for Screens, windbreaks and wildlife habitat. Does well in poorly drained sites. Wood from Cedar does not rot thus making it preferred for outdoor construction. Bronze winter color. Fast Growth....25-35 feet	(must see, heavy screen) 4-6'+	\$35.00	\$30.00	\$25.00
<b>Norway Spruce (Picea Abies)</b> Fast growing species with dark green needles often used as windbreaks. Gracious hanging branches looking like Cyprus. Short needle length....150 feet	(very nice, shop and compare) 5-7'	\$40.00	call	call
<b>White Pine (Pinus Strobus)</b> Native (5) needle pine with a variety of uses. Timber, christmas trees, windbreaks, wildlife habitat or as an ornamental. Fast grower....80-100 feet	5-7'	\$50.00	\$45.00	\$40.00

## You may want to know!

: All stock, including large shade trees (but excluding balled conifers) are dug as bare-root and sold while stock is still dormant. Planting bare-root stock has proven to be an excellent way to handle these large and small hard-wood trees. They show excellent survival, save time and money, not to mention a lot of backaches.

: We buy or collect most of our seed from the central forests of Wisconsin, this ensures that you are getting (hardy to zone 3 & 4) stock adapted to our areas brutal winters.

## What does that mean?

1-0	a seedling that has grown for one year in the seedbed.	This is a seedling.
2-0	a seedling that has grown for two years in seedbed.	This is a seedling.
1-1	a seedling for one year then transplanted and grown for one year in transplant bed.	This is a transplant.
1-2	a seedling for one year then transplanted and grown for two years in transplant bed.	This is a transplant.
rc-1	a rooted cutting that has been in our propagation house for one year.	
rc-2	a rooted cutting that has been in propagation house for one year then transplanted into field or pot for a year.	

**Transplanting** adds additional size and root mass to seedlings and cuttings. Transplants are a good choice for smaller plantings where larger plants are desirable. Our transplanted stock is exceptional and is a bargain for landscapers on a budget.

**Longtime customers may notice a jump in prices on our large balled conifers, we now are including burlap and basket with each tree at cost. B&B makes handling this large stock much easier.**

**Contact your local forester for expert advice when planning your planting.**

Office:715/723-2072 Fax:715/720-1530

<b>River Birch (Betula Nigra)</b>	Excellent ornamental tree, heat and cold tolerant. Resistant to insects that plague the white birch. Quickly replacing white birch as a valuable landscape tree. Dark cinnamon to light creamy white peeling bark. <i>Fast growth....90 feet</i>	(multi stemmed clumps).... 10'+ <b>(Awesome, balled)</b>	\$75.00	call	call
<b>White Birch (Betula Papyifera)</b>	Most ornamental of all native birches. Chalk white bark peels in papery layers. Golden fall color. <i>Fast growth....80 feet</i>	(Must see) balled 6-8' (multi stemmed clumps) .....10+	\$45.00 \$50.00	\$40.00 \$45.00	call call
<b>Northern Pin Oak (Quercus ellipsoidalis)</b>	Strong straight central trunk, excellent form and fall color, small acorns that benefit wildlife. Tolerant of alkaline and compacted poor soils. <i>Medium to fast growth.....75 feet</i>	balled 8'+	\$35.00	\$25.00	call
<b>French Pussy Willow (salix Caprea)</b>	Silvery grey weepy catkins appear before leaves in early spring. Keep shrub To desired size by cutting back to ground every few years. <i>Fast growth....15-20'</i>	balled 6' +	\$45.00	call	call
<b>Little Leaf Linden (Tilia cordata)</b>	Excellent shade tree for anywhere and it grows well in cities. Beautiful spade shaped form, straight central trunk, Fragerant small yellow flowers in spring. <i>Medium growth....90 feet</i>	bareroot 5-8'	\$35.00	call	call
<b>Hybrid poplar (imperial Carolina)</b>	( great for quick shade) A long lived hybrid poplar with pyramidal habit. Huge waxy green leaves clatter in the slightest of summer breezes Disease resistance and very vigorous growth, up to 5-8' per year. <i>Fast growth.....60-120 feet</i>	bareroot 8-12'	\$20.00	\$15.00	\$10.00
<b>Red Maple(Acer rubrum)</b>	Grows well in moist bottom land. Excellent choice as ornamental, green leaves In summer, scarlet red fall foliage is a real eye stopper. Valuable lumber species. <i>Medium growth....120 feet</i>	bareroot 8-12'	\$35.00	\$30.00	Call

## **Royal Red Maple (Acer plantanoides 'Royal Red')**

Oval crown becomes more rounded with age. Glossy, dark purple leaves all summer then turning a maroon to red-bronze in the fall. Similar to "Crimson King" but better color, straighter trunk and hardier. Mature height x width 40' x 30'

## **Legacy Sugar Maple (Acer Saccharum 'Legacy')**

Dark green glossy foliage with a dense oval crown, has exceptional yellow-orange to red color in fall. A hardy, vigorous tree that is resistant to heat and free of leaf tatter. Very good shade tree. Mature height x width 50' x 30'

## **Autumn Blaze Maple (Acer x Freemanii 'Jeffersred')**

Upright broad oval habit, medium green summer foliage and spectacular scarlet red explosion in fall. Retains fall color longer than most maple cultivars adapts to a wide variety of sites. Mature height x width 50' x 40'

## **Greenspire Linden (Tila Cordata 'Greenspire')**

Pyramidal, symmetric form, small glossy, dark green leaves turning golden in fall. Small sweet fragerant flowers hang in clusters in spring, filling the air with a beautiful scent. Mature height x width 40' x 30'

## **Skyline Honeylocust (Gleditsia Triacanthos Var.inermis 'Skycole')**

Broad pyramidal symmetric crown with fine textured compound leaves. Light green foliage turns a brilliant gold in fall. Hardy to cold, heat, and wind. Mature height x width 45' x 35'

## **Sunburst Honeylocust (Gleditsia Triacanthos Var.inermis 'Suncole')**

Aptly named, this Honey locust welcomes spring with a burst of gold foliage making it a stand out in the landscape, then slowly turns to green thru summer then back to gold in fall. (Thorn-less variety)!! Mature Height x width 40' x 30'

## **Prairifire Crabapple (Malus Prairifire)**

Brilliant pink-red flowers are followed by deep purple spring foliage turning dark green on red stems in summer. An outstanding crab without the mess, as the small fruit persist into winter. Mature Height x width 40' x 30'

## Unbelievable Pricing for large grafted bareroot trees..... (shop and compare)

Quantity... 1-4 only \$35.00 each / Quantity... 5-9 only \$30.00 each / Quantity... 10 or more only \$25.00 each

**These are large (most 8'+) straight, high quality bareroot- trees that are easy to plant and should thrive in your landscape.**

## Cultural notes...

- : Plantings of conifers and adjacent fruit bearing shrubs provide essential cover and food for song birds and other wildlife.
- : Wind breaks slow fierce winter winds and reduce cooling cost in summer. A correctly placed windbreak can reduce energy needs by more than 10%.
- : Spacing for wind breaks can vary, however we recommend a double row of trees 6 feet apart and 8 feet between rows. A nice addition to this is a third row comprised of deciduous shrubs. 100 lineal feet / 6 feet x 3 rows = 50 trees
- : Spacing for Christmas trees 6x6=1210 trees/acre 8x8=680trees/acre
- : Spacing for forestry plantings 8x8=680 trees/acre
- : Spacing for shrubs 3x3=4840/acre
- : Consult your local forester for expert advice before getting started.
- : Check out our web site ([www.paintcreeknursery.com](http://www.paintcreeknursery.com)) for great links to loads of information on trees.

**TERMS:** Orders under \$100 must be paid in full at time of order. All others require a 25% deposit with credit approval. Check or money order accepted. Estimated shipping cost is 20% (minimum \$10.00) of order + \$5.00 per box charge, Actual amount to be determined once order has been packed. Payment is due in full, prior to shipment. If your order is to be picked up please confirm pick up date one week in advance. All orders should designate the desired date of shipment if not indicated the shipment will be made at our discretion.

**CLAIMS:** All orders are accepted subject to prior sales, crop injury, inventory errors or loss beyond our control. Upon receiving your order, please unpack and report any damage to us immediately. Claims in writing must be made within 3 working days after arrival to be considered valid.

Our liability does not exceed the original purchase price. Shipments travel at the risk and expense of the purchaser.

**PRICES:** Prices stated supersede all previous listings and are subject to change in whole or part without notice.

**SALES TAX:** Wisconsin sales tax of 5.5% will be charged unless a Wisconsin re-sale certificate is provided at time of sale or is on file with us.

**Warranty :** We are no longer offering any warranty on any stock we sell. Drought conditions and tree care, which are out of our control, make survival uncertain.

**Please Note: We do sell out of many species early in the season, if you're ordering after March 1<sup>st</sup> you should e-mail or call to check inventory levels before sending your order. No stock will be reserved until we receive payment.**
