

# Conifer seedlings and transplants

	Age	Size	1-24	25-99	100+	500+	1000+
<b>PINES</b>							
<b>Scotch Pine (Pinus Sylvestris "Belgium")</b>	2-0	12-22"	1.00	.45	.40	.45	XX
One of the best Christmas trees strains, holds color in winter. Similar or better than East Anglia. Fast growth .....60 feet							
<b>Red Pine (Pinus Resinosa)</b>	2-0	6-12"	1.00	.30	.28	.25	.22
Fast growing lumber species that can really handle adverse environments. Also called Norway Pine. Long needle length....75 feet							
<b>White Pine (Pinus Strobus)</b>	2-0	6-12"	1.00	.30	.28	.25	.22
Native 5 needle pine with a variety of uses. Christmas trees, windbreaks, wildlife habitat or as an ornamental. Fast grower....150 feet							
<b>Austrian Pine (Pinus Nigra)</b>	2-0	4-8"	1.00	.30	.28	.25	XX
Fast growing species, widely planted for landscaping, excellent wind breaks, very adaptable to cold, wind and salt. Grows well in either clay or sandy soils. Fast growth....150 feet							
<b>Jack Pine (Pinus Bankiana)</b>	2-0	4-8"	1.00	.30	.28	.25	XX
Fast growing pine, widely planted for the paper industry, excellent habitat species. Grows well in sandy soils. Fast growth....55-100 feet							
<b>3-0</b>		10-24"	1.00	.60	.50	XX	XX
<b>SPRUCE</b>							
<b>Blue Spruce (Picea Pungens)</b>	2-0	10-16"	1.00	.40	.35	.30	.25
Slow growing spruce with sharp needles bluish color varies to dark green in seed propagated trees. Native to Colorado, very hardy. Short needle length....50 feet							
<b>White Spruce (Picea Glauca)</b>	2-0	10-16"	1.00	.40	.35	.30	.25
Hardy northern spruce with stiff bluish green needles. Symmetric growth. Short needle length....50 feet							
<b>3-0</b>		15-24"	2.00	.75	XX	XX	XX
<b>Norway Spruce (Picea Abies)</b>	2-0	10-16"	1.00	.40	.35	.30	.25
Fast growing species with dark green needles often used as windbreaks. Short needle length....150 feet							
<b>2-2</b>		10-20"	2.00	.75	XX	XX	XX
<b>Black Hills Spruce (Picea glauca densata)</b>	3-0	6-12"	1.00	.40	.35	XX	XX
Slow growing compact tree. Bluish/green foliage. Extremely hardy. As an ornamental it gives an alpine meadow effect. Short needle length.....25-35 feet							
<b>2-2</b>		10-16"	2.00	1.75	1.5	XX	XX
<b>FIRS</b>							
<b>Balsam Fir (Abies Balsamea)</b>	3-0	5-12"	1.00	.40	.35	XX	XX
Soft, bright green needles, very popular Christmas tree. Needs very little shearing. Medium growth....75 feet							
<b>Frasier Fir (Abies Fraseri)</b>	3-0	5-12"	1.00	.60	.50	XX	XX
Very popular for Christmas trees. Good needle retention and soft, shiny, bright green needles. Medium grower....60 feet							
<b>3-3</b>		12-30"	5.00	2.50	2.00	XX	XX
<b>Cedar</b>							
<b>Eastern Red Cedar (Juniperus Virginiana)</b>	1-0	12-15"	1.00	.95	.90	.85	XX
Dense pyramidal tree shears well, super tough ornamental or wildlife species. Does well on sandy sites. Wood used for cedar chest. Fast growth....20-30feet							
<b>2-3</b>		18-36"	8.00	7.00	XX	XX	XX
<b>White cedar (Thuja Occidentalis) "Arborvitte"</b>	3-0	4-12"	1.00	.40	.35	.30	.25
Native to the eastern U.S. and Canada. Excellent for Screens, windbreaks and wildlife habitat. Does well in poorly drained sites. Wood from Cedar does not rot thus making it preferred for outdoor construction. Bronze winter color. Fast Growth....25-35 feet							
<b>3-2</b>		8-15"	2.00	1.50	1.00	XX	XX
<b>3-3</b>		20-48"	8.00	7.00	XX	XX	XX

# Hardwood seedlings and transplants

	Age	Size	1-24	25-99	100+	500+	1000+
<b>Silver Maple (Acer Saccarinum)</b> Your best pick for quick shade. Light green leaves turn bright yellow in fall. <i>Very fast growth....120 feet</i>	1-0	5-20"	1.00	.18	.16	.15	.13
<b>Sugar Maple (Acer Saccharnum)</b> Hardy maple valued for many woodland projects. Makes a great shade tree and is valued for its syrup. Brilliant fall color. <i>Fast growth....70 feet</i>	1-0	12-18"	2.00	1.50	.75	XX	XX
	2-2	24-40"	3.00	2.75	1.50	1.25	XX
<b>River Birch (Betula Nigra)</b> Excellent ornamental tree, very heat and cold tolerant. Resistant to insects that plague the white birch. Quickly replacing white birch as a valuable landscape tree. Dark cinnamon to light creamy white bark. <i>Fast growth....90 feet</i>	2-0	12-30"	1.00	.45	.35	XX	XX
<b>White Birch (Betula Papyfera)</b> Most ornamental of all native birches. Chalk white bark peels in papery layers. Golden fall color. <i>Fast growth....80 feet</i>	2-0	10-20"	1.00	.45	.35	XX	XX
<b>Russian Mulberry (Morus alba forma tatarica)</b> Extremely dense round topped tree with bright green leaves. Grows well and rapidly in poor dry soils and will give quick shade. <i>Fast growth....35 feet</i>	1-0	6-12	1.00	.45	.35	XX	XX
<b>Weeping Willow (salix babylonica)</b> Grown in any soil type, graceful pendulous habit. <i>Very fast growth....70 feet</i>	RC-1	24-36"	3.00	2.50	2.00	XX	XX
	RC-2	3-6'	10.00	XX	XX	XX	XX
<b>Red Oak (Quercus Rubra)</b> Hardy northern oak prized for its lumber and beneficial acorns. Dark waxy green leaves. <i>Medium to fast growth....80 feet</i>	1-0	4-10"	1.00	.35	.30	.24	.18
<b>Red Maple (Acer rubrum)</b> Grows well in moist bottom land. Excellent choice as ornamental, fire red fall foliage is a real eye stopper. Valuable lumber species. <i>Medium growth....120 feet</i>	1-0	6-12"	1.00	.40	.35	.30	.25
<b>White Oak (Quercus Alba)</b> Large majestic form, valuable hardwood, good fall color. Acorns benefit wildlife. <i>Slow to medium growth....60 feet</i>	2-0	10-30"	1.00	.70	.60	XX	XX
<b>Swamp White Oak (Quercus bicolor)</b> Large majestic form, valuable hardwood, good fall color. Acorns benefit wildlife. Tolerates flooding and wet ground <i>Slow to medium growth....60 feet</i>	2-0	8-20"	1.00	.70	.60	XX	XX
<b>Burr Oak (Quercus Macrocarpa)</b> ---SOLO OUT--- Impressive large tree for shade or wildlife feed. More tolerant of urban conditions than most oaks. Distinctive burred caps on acorns. <i>Medium growth....75 feet</i>	1-0	4-10"	1.00	.35	.30	.24	XX
<b>Green Ash (Fraxinus Pennsylvanica)</b> ---SOLO OUT--- Grows best in sterile upland soils. Valuable as an ornamental because of its waxy green foliage & quick shade. <i>Very fast growth....60 feet</i>	1-0	6-12"	1.00	.35	.25	.20	.13
<b>White Ash (Fraxinus Americana)</b> Leaves turn deep purple to yellow in fall. Valuable lumber species. Straight and tall trunk. <i>Fast, vigorous growth....100 feet</i>	1-0	6-12"	1.00	.75	.65	.55	.45
<b>Siouxland Poplar (Populus x Deltoids 'Siouxland')</b> A superior cotton-less cottonwood. Pyramidal, very fast growing shade tree. Tolerates alkaline soils and pollutants. <i>Very fast growth....60-80 feet</i>	Rc-1	24-36"	2.50	1.25	XX	XX	XX

Office: 715/723-2072...Nursery: 715/723-2070...Fax: 715/720-1530...e-mail: [mcinnis@ecol.net](mailto:mcinnis@ecol.net)

## Large Conifers (balled)

	Size	1-5	6-10	10+
<b>White Spruce (Picea Glauca) sheared</b> Hardy northern spruce with stiff bluish green needles. Symmetric growth <i>Fast growth....50 feet</i>	1-2'	10.00	8.00	6.00
	3-4'	20.00	19.00	18.00
	5-7'	45.00	40.00	35.00
<b>Black Hills Spruce (Picea glauca densata) Heavy shear</b> Extremely hardy compact tree. Bluish green needles. <i>Slow growth....25-35 feet</i>	8-10'	100.00	75.00	70.00
<b>Norway Spruce (Picea Abies) unsheared</b> Excellent source for windbreaks, extremely cold hardy and wind resistant. <i>Fast growth....100-150 feet</i>	5-7'	50.00	45.00	40.00
<b>Blue Spruce (Picea Pungens) unsheared</b> Slow growing spruce with sharp needles bluish color varies to dark green in seed propagated trees. Native to Colorado, very hardy. <i>Short needle length....50 feet</i>	1-2'	10.00	8.00	6.00
	2-4'	15.00	13.00	11.00
<b>Balsam Fir (Abies Balsamea)</b> Soft, bright green needles, very popular Christmas tree. Needs very little shearing <i>Medium growth...75 feet</i>	3-4'	25.00	20.00	18.00
	3-4'	20.00	18.00	16.00
	4-6'	45.00	40.00	35.00

### You may want to know!

We grow our large conifers in a heavy clay loam soil that sticks to root systems real good after digging, this nearly eliminates the need to wrap the root ball. We can wrap root balls on request however, there is an additional charge of \$10.00 per tree for wrapping.

All stock, including large shade trees (but excluding balled conifers) are dug as bare-root and sold while stock is still dormant. Planting bare-root stock has proven to be an excellent way to handle these large and small hard wood trees. They show excellent survival, save time and money, not to mention a lot of backaches.

We buy or collect most of our seed from the central forests of Wisconsin, this ensures that you are getting (hardy to zone 4) stock adapted to this areas brutal winters.

### What does that mean?

- 1-0 a seedling that has grown for one year in the seedbed.
- 2-0 a seedling that has grown for two years in seedbed.
- 1-1 a seedling for one year then transplanted and grown for one year in transplant bed.
- 1-2 a seedling for one year then transplanted and grown for two years in transplant bed.
- rc-1 a rooted cutting that has been in our propagation house for one year.
- rc-2 a rooted cutting that has been in propagation house for one year then transplanted into field or pot for a year.

**Cuttings** are stems taken from certain plants that are difficult or nearly impossible to start from seed and rooted using hormones.

**Transplanting** adds additional size and root mass to seedlings and cuttings. Transplants are a good choice for smaller plantings where larger plants are desirable. Our transplanted stock is exceptional and is a bargain for landscapers on a budget.

## Fruit Trees

	Size	1-5	6-10	10+
<b>Harbin Pear (Pyrus ussuriensis)</b> Winter hardy, resistant to fire blight, beautiful ornamental and wildlife species, small hard fruit suitable or wildlife. Plant 2 to insure pollination. <i>Fast growth....35 feet</i>	5-8"	25.00	20.00	XX
	Heavily branched...		nearly specimen size.	
<b>Ranetka Crab (Malus x Ranetka)</b> Fast grower with profuse white flowers, does great in extreme cold. Small red apples provide lots of food for wildlife. <i>Fast growth....40 feet</i>	6-8'	10.00	9.00	8.00
	Heavily branched...		nearly specimen size.	
<b>Haralson Apple Certified virus free</b> <i>Highly recommended winter hardy apple. Fruit is medium size and Very juicy, heavy fruit production.</i>	4-5'	15.00	XX	XX
<b>McIntosh Apple Certified virus free</b> <i>One of the most popular apples. Fruit has tart spicy flavor, good for both Fresh eating and cooking. Ripens in September.</i>	4-5'	15.00	XX	XX
<b>Honeycrisp Apple Certified virus free</b> <i>Crisp, juicy with excellent flavor, keeps in common storage up to 5 months. The new standard in eating apples, honeys are among the best.</i>	4-5'	20.00	XX	XX

# Fruit and Nut seedlings

	Age	Size	1-24	25-99	100+	500+	1000+
<b>Black Walnut (<i>Juglans nigra</i>)</b> Fast growing, popular hardwood tree, nuts are thick shelled and full flavored. Tolerates cold climates. Makes a good shade tree. <i>Fast growth....80 feet.</i>	1-0	16-12	1.00	.55	.45	.35	.30
<b>Black Cherry (<i>Prunus serotina</i>)</b> Excellent ornamental, deep green leaves. Good for wildlife, highly prized wood. Fruit used for preserves. <i>Medium growth....80 feet</i>	1-0	6-12"	1.00	.45	.35	.25	.22
<b>Butternut (<i>Juglans cinerea</i>)</b> Resemble black walnut but smaller, delicious hard shelled nuts have rich spicy flavor, wood used for rifle stocks. <i>Fast growth....60 feet</i>	1-0	10-24"	1.00	.55	.50	.45	.30
<b>Horse Chestnut (<i>Aesculus hippocastanum</i>)</b> Large palmate leaves and prickly nuts make it a good choice for a landscape with lots of space. <i>Medium growth....75 feet</i>	2-0	10-24"	1.00	.80	.65	.60	XX
<b>Common Apple (<i>Malus domestica</i>)</b> Seed propagated domestic apple, useful for wildlife habitat, home orchard or shelterbelt filler. Plant one near your favorite deer habitat. <i>Medium growth....25 feet</i>	1-0	24-36"	1.00	.85	.79	.69	XX
<b>Nanking Cherry (<i>Prunus tomentosa</i>)</b> Very hardy, attractive, flowering ornamental; wind break filler. Fruit used for jam and jelly. Dark waxy green leaves, multi-stemmed wildlife shrub. <i>Medium growth....9 feet</i>	1-0	12-18"	1.00	.35	.30	XX	XX
<b>Sandcherry (<i>Prunus cerasus</i>)</b> Extremely hardy ornamental shrub. White flowers followed by sweet, edible fruit, striking silver green glossy leaves. <i>Medium growth....7 feet</i>	2-0	6-12"	2.00	.45	.35	XX	XX

# Shrubs

	Age	Size	1-24	25-99	100+	500+	1000+
<b>Lilac early (<i>Syringa oblata</i>)</b> Showy purple to white flowers in May. Provides cover for wildlife and makes good windbreaks and privacy borders. Leaves have a burgundy fall color. <i>Fast growth....12 feet</i>	2-0	6-15"	1.00	.45	.35	XX	XX
<b>Ninebark (<i>Physocarpus opulifolius</i>)</b> Dense bushy shrub with golden yellow leaves in fall and white to pink flowers. Tiny seeds in fall provide food for migratory and game birds. <i>Fast growth....5-7 feet</i>	2-0 3-0	15-30" 30+ Huge	1.00 2.50	.40 1.00	.35 .90	.258 XX	.19 XX
<b>Silky Dogwood (<i>Cornus amomum</i>)</b> Dense growing shrub with striking red bark in winter. Clusters of beautiful white blossoms followed by purple fall berries are a major food source for migrating birds. Dark green waxy leaves <i>Fast growth....9 feet</i>	1-0	10-20"	1.00	.40	.35	.25	.19
<b>Red Osier Dogwood (<i>Cornus sericea</i>)</b> Colorful all year. Grows rapidly to multi-stem shrub. Red twigs, white blossoms and fruit for migrating song birds. Dark green waxy leaves <i>Fast growth....7-10 feet</i>	1-2	12-24"	1.00	.40	.35	.25	.19

# Shrubs continued...

	Age	Size	1-24	25-99	100+	500+	1000+
<b>Red Leaf Rose (Rosa Rubrifolia)</b> One of the hardiest roses. Foliage stays purplish-red throughout the summer and together with single red-pink flowers makes a very attractive ornamental. <i>Fast growth....6-7 feet</i>	1-1	18-36"	5.00	4.50	4.00	XX	XX
<b>Russian Mulberry (Morus alba forma tatarica)</b> Extremely dense round topped tree with bright green leaves. Grows well and rapidly in poor dry soils and will give quick shade. <i>Fast growth....35 feet</i>	2-0	10-18"	1.00	.40	.35	.25	XX
<b>Hazelnut (Corylus americana)</b> Attractive Dark green foliage. Grows well in shade. Edible nuts Provide food for wildlife and man. <i>Fast growth....5-8'</i>	1-0	4-8'	1.00	.40	.35	XX	XX
<b>Green Barberry (Berberis thunbergii)</b> Hardy shrub with small green leaves turning red-orange in fall. Creamy/white flowers and red fruit. Excellent source of food for birds. <i>Fast growth....4-6 feet</i>	2-0	6-10"	1.00	.40	.35	.30	XX
	1-2	18-24"	5.00	XX	XX	XX	XX
<b>Red Barberry (Berberis thunbergii "atropurpurea")</b> Hardy shrub with red-purple leaves throughout summer, very ornamental. Dense growth provides food and shelter for song & game birds. <i>Fast growth....3-5 feet</i>	2-0	6-10"	1.00	.40	.35	.30	XX
	2-2	12-24"	5.00	XX	XX	XX	XX
<b>Rugosa Rose (Rosa rugosa)</b> Extremely hardy with deep pink to white flowers red fruit. Most popular of all shrub roses. <i>Fast growth....3-5 feet</i>	1-0	6-12"	1.00	.40	.35	.30	XX
<b>High bush Cranberry (Viburnum Trilobum)</b> White flowers in flat clusters in May. Beautiful lustrous green leaves followed by scarlet red fruit and leaves in fall. <i>Fast growth.....8-12 feet</i>	rc-3	24-36"	4.00	2.50	XX	XX	XX
<b>Snowmound Spirea (Spirea nipponica 'Snowmound')</b> An excellent dwarf shrub, with dense dark Green foliage and masses of pure white Flowers in May. <i>Fast growth.....3-4 feet</i>	rc-2	10-15"	3.00	2.50	XX	XX	XX
<b>Goldflame Spirea (Spirea x bumalda 'Gold Flame')</b> Brilliant red new growth changing to golden yellow then to green. Beautiful crimson flowers in midsummer. A trouble free accent or foundation plant. <i>Fast growth.....3-4 feet</i>	rc-2	10-15"	3.00	2.50	XX	XX	XX
<b>Variegated Dogwood (Cornus)</b> Interesting green and white foliage in summer red stems in winter make this dogwood a good choice in and around foundations and conifers. <i>Fast growth.....6-10 feet</i>	rc-2	10-24"	3.00	2.50	XX	XX	XX
<b>Cranberry Cotoneaster (Cotoneaster apiculatus)</b> Dense mounded shrub with arching branches and bearing in abundance bright red berries which persist through the winter. Pink flowers in early June, fruits in August and September. Small round waxy green leaves. Good choice for wall tops and ground cover.	rc-2	8-12"	3.00	2.50	XX	XX	XX
<b>Diablo Ninebark (Physocarpus opulifolius)</b> Purple to reddish foliage throughout the season and white Blooms in the spring. This is a must have for your landscape Plant royalty has been included. <i>Fast growth....10'</i>	rc-2	18"+	5.00	4.50	4.00	XX	XX
<b>Silky Dogwood (Cornus amomum)</b> Dense growing shrub with striking red bark in winter. Purple fall berries are a major food source for migrating birds, especially bluebirds. <i>Fast growth....9 feet</i> <i>Fast growth.....2-3 feet</i>	1-3	24-48"	8.00	7.50	7.00	6.00	XX
		48"+ (Huge)	12.00	11.50	11.00	XX	XX

# Large Shade Trees

	Size	1-5	6-10	10+
<b>Norway Maple</b> ( <i>acer platanoides</i> ) Beautiful crowing maple with large dark green leaves turning gold to yellow in fall. Does well in the city. Medium growth....90 feet	5-8'	20.00	18.00	15.00
<b>Sugar Maple</b> ( <i>acer saccharum</i> ) Grows well in moist bottom land. Excellent choice as ornamental, fire red fall foliage is a real eye stopper. Valuable lumber species. Medium growth....120 feet	5-8' 6-8'	13.00 30.00	10.00 25.00	8.00 20.00
<b>Weeping Willow</b> ( <i>salix babylonica</i> ) Grows in any soil type, graceful pendulous habit Very fast growth....70 feet	5-7'	10.00	9.50	9.00
<b>Amur Maple</b> ( <i>acer ginnala</i> ) <b>Tree form</b> Small ornate maple, very hardy. Vivid scarlet red fall color. Slow growth....20 feet	3-5'	15.00	13.00	10.00
<b>Mountain Ash</b> ( <i>sorbus americana</i> ) Dark green leaves, brilliant red-orange fruit, excellent food source for birds. Fast growth....35-45 feet	6-8'	25.00	20.00	15.00
<b>Siouxland Poplar</b> ( <i>Populus x Deltoids 'Siouxland'</i> ) A superior cotton-less cottonwood. Pyramidal, very fast growing shade tree. Tolerates alkaline soils and pollutants. Very fast growth....60-80 feet	3-5'	5.00	4.50	4.00
<b>Raverdeau Poplar</b> ( <i>Populus x Euramericana 'Raverdeau'</i> ) Semi-upright pyramidal form. Recommended for pulpwood plantings in North Dakota and Minnesota by USDA-ARS. Very fast growth....60 feet	3-5'	5.00	4.50	4.00
<b>Green Ash</b> ( <i>Fraxinus Pennsylvanica</i> ) Grows best in sterile upland soils. Valuable as an ornamental because of its waxy green foliage & quick shade. Very fast growth....60 feet	5-8'	13.00	10.00	8.00

## Cultural notes...

- : Plantings of conifers and adjacent fruit bearing shrubs provide essential cover and food for song birds and other wildlife.
- : Wind breaks slow fierce winter winds and reduce cooling cost in summer. A correctly placed windbreak can reduce energy needs by more than 10%.
- : Spacing for wind breaks can vary, however we recommend a double row of trees 6 feet apart and 8 feet between rows. A nice addition to this is a third row comprised of deciduous shrubs. 100 lineal feet / 6 feet x 3 rows = 50 trees
- : Spacing for Christmas trees 6x6=1210 trees/acre 8x8=680trees/acre
- : Spacing for forestry plantings 8x8=680 trees/acre
- : Spacing for shrubs 3x3=4840/acre
- : Consult your local forester for expert advice before getting started.
- : Check out our web site ([www.paintcreeknursery.com](http://www.paintcreeknursery.com)) for great links to loads of information on trees.

**TERMS:** orders under \$100 must be paid in full at time of order. All others require a 25% deposit. Check or money order accepted. Estimated shipping cost is 15% of order and \$5.00 per box charge, amount to be determined once order has been packed. Payment is due in full prior to shipment. If your order is to be picked up please confirm pick up date one week in advance. All orders should designate the desired date of shipment. If not Indicated, the shipment will be made at our discretion.

**CLAIMS:** All orders are accepted subject to prior sales, crop injury, inventory errors or loss beyond our control. Upon receiving your order, please unpack and report any damage to us immediately. Claims in writing must be made within 3 working days after arrival to be considered valid.

Our liability does not exceed the original purchase price. Shipments travel at the risk and expense of the purchaser.

**LIMITED WARRANTY:** We guarantee that a healthy nursery stock, true to name, is freshly boxed and should arrive in excellent condition. Survival of our large shade trees, large conifers, and transplant stock is guaranteed to survive thru its first growing season. Any claims must be accompanied by completely dead stock and original sales receipt. Our warranty does not cover insect damage, inspect plants before making claim.

**PRICES:** Prices stated supercede all previous listings and are subject to change in whole or part without notice.

**SALES TAX:** Wisconsin sales tax of 5.5% will be charged unless a Wisconsin re-sale certificate is provided at time of sale or is on file with us.
